W/Lead Parental Release Forms/Request for Determination of Lead Hazards and Enforcement of the Lead Law

updated 6/9//16

identifies lead hazards in violation of Massachusetts General Laws (MGL), Chapter 111, Section 197 and Regulations for Lead Poisoning Prevention and Control, 105 Code of Massachusetts Regulations (CMR) 460.110 and .750, such violations must be either delead for full compliance, or the unit must be brought under interim control at the property owner's expense. The property owner must also submit within 60 days of the receipt of such an Order, a copy of the signed contract with a licensed de-leader, if one will be necessary for the required work. If the owner or his/her agent is going to perform owner/agent de-leading work, the owner must also submit a special form within 60 days. If the owner fails to comply with the Order to Correct Violations, the Childhood Lead Poisoning Prevention Program (CLPPP) shall initiate judicial proceedings against the owner to enforce the order.

CLPPP conducts random audits of its inspections conducted by private inspectors and risk assessments conducted by private risk assessors following lead determinations. Such monitoring is performed to assure the quality of services being provided to the public. By requesting this determination you agree to allow CLPPP access to your residential premises or dwelling unit after the initial determination and prior to your returning once any deleading, whether for full compliance or interim control, is completed. Not all private inspections or private risk assessments will be audited, so you may not hear from CLPPP requesting access for these additional visits.
